THE STRUCTURAL ENGINEER

THE JOURNAL OF THE INSTITUTION OF STRUCTURAL ENGINEERS

INDEX VOL. 44. 1966

PAGE

ADAMS, H. C.: See CREASY, L. R., H. C. Adams and S. G. Silhan
Adhesives: North American practice in glue laminated timber bridges 453
AGGARWAL, V. S.: Correspondence on 'Twenty-storey office block founded on soft sand in Nigeria', by A. S. Grimes and W. G. Cantlay 181
AKROYD, T. N. W.: Workmanship for a structural concrete code 369
ALCOCK, D. G.: Analysis of structural piling systems 403
Correspondence on 'Degrees of freedom of plane and space frames', by K. S. Rangasami and S. K. Mallick 310
ALLAN, B. J.: Correspondence on 'Investigation into the causes of the deflexion of heated concrete floors', by R. A. S. Jenkins, J. M. Plowman and B. A. Haseltine 155
ALLEN, D. N. de G.: Award of Research Diploma 39
Aluminium:
Failure loads of steel and structural aluminium alloy portals... 207
Lateral buckling of concrete beams lifted by cables—Tests 21
Prismatic coal bunkers in structural steelwork (aluminium model) 55
Small-scale aluminium stanchions in combined bending and compression 143
Annual Dinner, 1966 ... ... 91, 125, 195
Annual General Meeting, 1966 ... ... 159, 231, 262
Arches:
Numerical buckling analysis of arches and rings 245
Numerical solution of second-order problems in structural analysis 79
The design of network arches 249
Architects and Architecture:
Art of structural engineering 97
Ingeneers or Engineers? Presidential Address, 1966 429
ARUP, Ove: Award of RIBA Royal Gold Medal for Architecture 39
AUGUSTI, G. and B. Barbarito: Small-scale aluminium stanchions in combined bending and compression 143
Axial loading test on short reinforced lightweight-aggregate (Lytag) concrete columns 291
AZIZ, E. M. and A. D. Edwards: Some aspects of the economics of continuous prestressed concrete bridge girders 49
BAKER, A. L. L.: Formulae for computation of the strength of reinforced and prestressed concrete members 276

PAGE

BALAKRISHNAN, S.: Award of Research Bronze Medal 39
BARBARITO, B.: See AUGUSTI, G. and B. Barbarito
Basements: Building high in a typhoon zone (Hong Kong) 171
BATES, W.: Award of Research Diploma ... 39
Beams:
Column buckling loads by the conjugate beam method 183
Foundation mat problems by finite-element methods (elastic foundations) 223
Influence lines for a symmetrical arrangement of spans of uniform section ... 313
Lateral buckling of concrete beams lifted by cables 21
Method of moment distribution 187
Method of ultimate strength design of RC beams in bending and torsion 139
Optimum design by structural synthesis —Précis 155
Solution of second-order problems in structural analysis 79
Bedford County Hall 288, 304
Bending moments, etc.:
Arches, network: design 249
Analysis of bursting forces due to single prestressing anchorage 271
Column buckling loads by conjugate beam method 183
Circular slab on elastic foundation, deflexions and bending moments Correspondence 170
Cylindrical television masts—design and construction 5
—Discussion 355
Developments in ship structures 63
—Discussion 443
Formulae for computation of strength of reinforced and prestressed concrete members 39, 126, 159, 276
Lateral buckling of concrete beams lifted by cables 21
Inglis A: a fully rigid multi-storey welded steel frame 435
Small-scale aluminium stanchions in combined bending and compression 143
Symmetrical arrangement of spans of uniform section—influence lines 313
Ultimate strength of RC beams in combined bending and torsion —Discussion 139
BEST, B. C.: See ROWE, R. E., W. B. Cranston and B. C. Best
BEVERAGE, A.: Award of Institution Bronze Medal 125

PAGE

BICKEL, J. O.: Trench type subaqueous tunnels—design and construction 339
Birmingham: Radio Towers —Discussion 151
BOLTON, A.: Critical load of trusses with redundant members —Correspondence 95, 108
See KIRBY, P. A. and A. Bolton

Book Reviews:
Achieving Balance between Capacity and Sales. Proceedings of Symposium: British Productivity Council 150
Analysis of Framed Structures: J. M. Gere and W. Weaver, Jr. 452
Basic Values on Single-Span Beams—Tables: G. Baum 410
Bâtiments d'habitation préfabriqués en eléments de grandes dimensions: B. Lewicki 410
Baustatik—Theorie und Beispiele: K. Hirschfeld 112
Building Physics—Acoustics: H. J. Purkis... 410
Building with Steel—Design, Detailing and Erection, 2nd Ed.: D. A. Halperin ... 409
Calcul du béton armé à la rupture: R. Chambaud 182
Calcul rapide des profils à âme pleine—Méthode des invariants de forme: P. Multin and L. Rougeot 112
Changing to the Metric System. Conversion Factors, Symbols and Definitions: P. Anderton and P. H. Bigg 410
Communications in the Building Industry. Report of a Pilot Study: G. Higgin and N. Jessop 112
Composite Construction in Steel and Concrete: H. T. Yan 306
Comprehensive Architectural Services. General Principles and Practice: W. D. Hunt, Jr. 268
Concrete Architecture of Riccardo Morandi: G. Boaga and B. Boni 466
Constructional Steelwork Simply Explained, 5th Ed.: O. Faber 206
Construction Industry of Great Britain: J. R. Colclough 426
Contemporary Forming Methods: L. Mohácsy 306
Contribution à l'étude de la résistance des vôutes autoportantes cylindriques et prismatiques: V. V. Nori 452
Definitions, Formulae and Worked Examples in Strength of Materials: J. A. Cormack... 182
Deflection Ordinates for Single-Span and Continuous Beams. Formulas and Tables for Ten-Division Influence Lines: G. Anger and K. Tramm 206
Design Charts for Members Subjected to Biaxial Bending and Thrust : F. N. Pannell 410
Design of Reinforced Concrete: H. J. Cowan and P. R. Smith 306
Design Textbooks in Civil Engineering, Vol. 1 Canals and Barrages; Vol. 2 Syphons, Weirs and Locks; Vol. 3 Dams for Percolation and Erosion; Vol. 4 River and Canal Hydraulics: S. Leliavsky 466
Deterioration, Maintenance and Repair of Structures: S. M. Johnson 182

Book Reviews (*cont.*): PAGE
Elastic Analysis of Flat Grillages with Particular Reference to Ship Structures: J. Clarkson 206
Engineering Materials, Selection and Value Analysis: H. J. Sharp, Ed. 452
Essays on the Effective Length of Framed Columns: W. G. Grier 409
Evaluation of Concrete Properties from Sonic Tests: E. A. Whitehurst 366
Faculty of Engineering, University of Tokyo Collected Papers, Vols. 1 and 2 111
Fahrbahnplatten mit veränderlicher Dicke, Vol. 1: H. Homberg and W. Ropers ... 268
Flexural Mechanics of Reinforced Concrete. Proceedings of Symposium, Florida, 1964 238
Formwork for Modern Structures: Compiled by Sir Frederick Snow 305
General Flexural Theory of Reinforced Concrete: H. Granholm 294
Graphical Techniques for Engineering Computations: W. H. Burrows 206
High Dam at Aswan. The Subjugation of the Nile: T. Little 268
Inelastic Behaviour of Load-Carrying Members: J. O. Smith and O. M. Sidebottom... 206
Influence Surfaces of Skew Plates: J. Balaš and A. Hanuška 410
International Association for Bridge and Structural Engineering Reports of the Working Commissions, Vol. 1 Structural Precast Concrete: G. Oberti, Editor ... 150
Introduction to Matrix Methods of Structural Analysis: H. C. Martin 306
Introduction to Shell Roof Analysis: A. Paduart 306
Lessons from Failures of Concrete Structures: J. Feld 111
Linear Elastic Theory of Thin Shells: J. E. Gibson 268
Matrix Algebra for Engineers: J. M. Gere and W. Weaver, Jr. 206
Matrix Analysis of Vibration: R. E. D. Bishop, G. M. L. Gladwell and S. Michaelson 426
Metallurgy of Welding, Brazing and Soldering: J. F. Lancaster 194
Model Analysis of Plane Structures: T. M. Charlton 238
Modern British Bridges: Dorothy Henry and J. A. Jerome 112
Multi-Lingual Glossary of Industrial Diamond Terms... 206
Nodes and Weights of Quadrature Formulas: A. S. Kronrod 150
Numerical Analysis of Beam and Column Structures: W. G. Godden 350
Physical Chemistry for Metallurgists: J. Mackowiak 194
Plastic Analysis and Design, Vol. 1—Beams and Frames: C. E. Massonnet and M. A. Save 466
Plastic Methods of Structural Analysis: B. G. Neal 238
Plastics in Building Construction. Proceedings of Conference: R. M. Davies, Editor 294

Book Reviews (*cont.*): PAGE

Plnostenné Ocelové Mosty Trámové: F. Faltus 350
Problems in Engineering Structures, 2nd Ed.: R. J. Ashby and A. H. Chilver 150
Problems in Strength of Materials: N. M. Belyayev 350
Proceedings of the British Ceramic Society, No. 4 Load-Bearing Brickwork 112
Proceedings of the Symposium on the High-Rise and Long-Span Structures: Japan Society for Promotion of Science ... 150
Progress in Control Engineering Vol. 3: R. H. Macmillan, T. J. Higgins and P. Naslin, Editors 410
Reinforced and Prestressed Concrete in Torsion: H. J. Cowan and I. M. Lyalin ... 194
Reinforced Concrete Fundamentals with Emphasis on Ultimate Strength, 2nd Ed.: P. M. Ferguson 194
Saving in Structural Steel through Standardisation 150
Simplified Design of Structural Steel, 3rd Ed.: H. Parker 206
Sound Control and Thermal Insulation of Buildings: P. D. Close 305
Stability of Frames: M. R. Horne and W. Merchant 452
Standards for Industry: C. D. Woodward, Editor 150
Steel Frame Design Examples, 2nd Ed.: I. Robb 206
Steel Space Structures: Z. S. Makowski ... 426
Stone for Building: H. O'Neill 194
Strength of Aluminium, 2nd Ed.: Aluminium Company of Canada 150
Stress Analysis: O. C. Zienkiewicz and G. S. Holister 112
Structural Theorems and their Applications: B. G. Neal 4
Surveying, 2nd Ed.: A. Bannister and S. Raymond 305
Symposium on Precast Wall Panels: ACI Publication SP-11 366
Tabellen für Momente und Stützkräfte von Durchlaufträgern: I. Kollár 409
Theory of Arch Dams. International Symposium, Southampton: J. R. Rydzewski, Editor 182
Theory of Structures, 2nd Ed.: S. P. Timoshenko and D. H. Young 4
Thermal Loading and Creep in Structures and Components. Proceedings of Conference, 1964 182
Tides: D. H. Macmillan 350
Timber Construction Manual: American Institute of Timber Construction ... 410
Traffic Control Theory and Instrumentation: T. R. Horton 194
Welding of BS 968: 1962 Steel: Institute of Welding 150
BOWMAN, W. E.: Useful method of moment distribution 187
Bridges:
Computer programme for solution of suspension bridge problems 161

Bridges (*cont.*): PAGE

Determination of buckling load of a prismatic element 113
Economics of continuous prestressed concrete bridge girders 49
Fatigue behaviour of sleeved and swaged joints (high tensile steel wire) 269
Glue laminated timber bridges 453
Influence lines for symmetrical arrangement of spans of uniform section 313
Network arches 249
Prestressing of steel girders 351
Structural piling systems 403
Structural use of precast concrete and CP116 (Oosterschelde bridge) 323
Workmanship for structural concrete code... 369
BRINK, A.: Recent developments in design of submerged tunnels 41
—Discussion 265
Brittle fracture: Developments in ship structures 63
—Discussion 443
BROOKS, D. F. and D. M. Brotton: Formulation of a general space frame programme for large computer 381
BROTTON, D. M.: General computer programme for solution of suspension bridge problems... 161
BRYAN, E. R.: Award of Research Diploma ... 39
Buckling:
Aluminium stanchions in combined bending and compression 143
Buckling analysis of arches and rings ... 245
Buckling load of a prismatic element ... 113
—Discussion 118
Column buckling loads by conjugate beam method
—Correspondence and Corrigenda 183
Design of network arches 249
Developments in ship structures 63
—Discussion 443
Hull-core structures —Discussion 169
Lateral buckling of concrete beams lifted by cables 21
Solution of second-order problems in structural analysis 79
Optimum design by structural synthesis —Précis 155
Building and buildings:
Art of structural engineering 97
Building high in a typhoon zone (Hong Kong) 171
Industrialized building conference 1, 39, 125, 159, 195
Twenty-storey office block founded on soft sand in Nigeria ... —Correspondence 181
Workmanship for a structural concrete code 369
Bunkers, prismatic, in structural steelwork 55
Cables:
Computer programme for solution of suspension bridge problems 161
Fatigue behaviour of sleeved and swaged joints in high tensile steel wire 269
Lateral buckling of concrete beams lifted by cables 21
Canada, Practice of engineering in ... 244, 248
CANTLAY, W. G.: Award of Institution Bronze Medal 125
See: GRIMES, A. S. and W. G. Cantlay

PAGE

CARNEY, J. F. III: See WIESINGER, F. P., J. F. Carney III and S. L. Lee
Cement, high alumina: Structural use of precast concrete and CP 116 (1965)... ... 323
CHAPMAN, J. C.: Award of Research Bronze Medal 39
Developments in ship structures 63
—Discussion 443
Charges, Scale of: Law as it affects the structural engineer 93
—Discussion 239
CHARMAN, W. R.: See MEARS, T. F. and W. R. Charman
Charter and Bye-Laws 125, 232
Coal bunkers, prismatic, in structural steelwork 55
Codes of Practice:
New concepts in design of structural concrete
—Discussion 127, 411
—Corrigendum 433
Structural use of precast concrete and CP 116 (1965) 323
Workmanship for a structural concrete code 369
COLLINS, A. R. and B. Scruby: Debate—The control of research programmes in structural engineering in Britain 3, 215
Columns:
Aluminium stanchions in combined loading and compression 143
Axial loading tests on short reinforced Lytag concrete columns 291
Column buckling loads by the conjugate beam method 183
Cylindrical television masts in Great Britain (base) 5
—Discussion 355
Formulae for computation of strength of reinforced and prestressed concrete members 39, 126, 159, 276
Impounding station at King George Dock, Hull 199
Inglis A: a fully rigid multi-storey welded steel frame 435
Communications: Radio towers —Discussion 151
Composite construction:
Glue laminated timber bridges 453
Inglis A: a fully rigid multi-storey welded steel frame 435
Structural use of precast concrete and CP 116 (1965) 323
Trench type subaqueous tunnels 339
Computation:
Analysis of structural piling systems ... 403
Distribution method for use with electronic computers 233
Economics of continuous prestressed concrete bridge girders 49
Formulae for computation of strength of reinforced and prestressed concrete members—ISE Report 39, 126, 159, 276
Foundation mat problems by finite-element methods 223
General computer programme for solution of suspension bridge problems 161
Iterative method of moment distribution for space frames 295

Computation (*cont.*) PAGE
Plane frameworks—repeated loading in elastic-plastic range 277
Space frame programme for a large computer 381
Concrete:
Analysis of the bursting forces due to a single anchorage 271
Axial loading tests on short Lytag concrete columns 291
Deflexion of heated concrete floors
—Correspondence 155
Design of structural concrete
—Discussion 127, 411
—Corrigendum 433
Economics of continuous prestressed concrete bridge girders 49
Extension of hangar for BOAC at London Airport —Discussion 397
Formulae for the computation of strength of reinforced and prestressed concrete—ISE Report 39, 126, 159, 276
Hull-core structures —Discussion 169
Impounding station at King George Dock, Hull 199
Lateral buckling of concrete beams lifted by cables 21
Radio towers —Discussion 151
Shutter ties in unlined concrete water-retaining structures 135
—Discussion 307

MALLICK, S. K.: See RANGASAMI, K. S. and S. K. Mallick
Masts, cylindrical, television: Design and construction in Great Britain 5
—Discussion 355
MATTHEWS, Dr. D. D.: President, 1966-67 287
Presidential Address: Ingeneers or Engineers? 429
MEARS, T. F. and W. R. Charman: Design and construction of cylindrical television masts in Great Britain 5
—Discussion 355
Medal Awards 125, 126
MICHAEL, D.: See LIGHTFOOT, E. and D. Michael
Models:
Developments in ship structures 63
—Discussion 443
Prismatic coal bunkers in structural steelwork 55
Moment distribution:
Analysis of Vierendeel bents with non-parallel members 16
Deriving influence lines for a symmetrical arrangement of spans of uniform section 313
Generalized method for use with electronic computers 233
Iterative method of moment distribution for space frames 295
Useful method of moment distribution ... 187
MURRAY BUXTON AWARD 126
NARAHARI, D. R.: Correspondence on ' A twenty-storey office block founded on soft sand in Nigeria ', by A. S. Grimes and W. G. Cantlay 181
Network arches, design 249
North American practice in glue laminated timber bridges 453
Obituary notices ... 35, 157, 159, 193, 230, 232, 285
Office buildings:
Hull-core structure —Discussion 169
Twenty-storey office block founded on soft sand —Correspondence 181
ORANGUN, C. O.: Axial loading tests on short reinforced lightweight-aggregate (Lytag) concrete columns 291
OSCAR FABER AWARD 126
Overseas members: Reduced subscription ... 428
Partnerships: The law as it affects the structural engineer 93
—Discussion 239
PAYNE, N. J. and K. F. Shadbolt: Structural aspects of the extension of a hangar for BOAC at London Airport —Discussion 397
Piles and piling:
Analysis of structural piling systems ... 403
Building high in a typhoon zone—Hong Kong 171
Design and construction of impounding station at Hull 199
PILGRIM, W. R.: See SCRIVEN, W. E. and W. R. Pilgrim
PIMM, Gower B. R.: Obituary notice 159
Plastic theory and design:
Failure loads of steel and structural aluminium alloy portals 207

PAGE

Plastic theory and design: (*cont.*)
Inglis A: rigid multi-storey welded steel frame... 435
New concepts in design of structural concrete —Discussion 127, 411
—Corrigendum 433
Response of plane frameworks to static and variable repeated loading in elastic-plastic range 277
Ultimate strength design of reinforced concrete beams in combined bending and torsion —Discussion 139
Plates:
Cylindrical television masts in Great Britain 5
—Discussion 355
Developments in ship structures 63
—Discussion 443
Foundation mat problems by finite-element methods 223
PLOWMAN, J. M.: Award of Research Bronze Medal 39
See also JENKINS, R. A. Sefton, J. M. Plowman and B. A. Haseltine
Post Office Tower Building: Radio towers —Discussion 151
Practice of engineering in Canada ... 244, 248
President, 1966-67: Dr. D. D. Matthews ... 287
Presidential Address, 1966: Ingeneers or Engineers? 429
Prismatic structures:
Determination of buckling load of prismatic element 113
—Discussion 118
Prismatic coal bunkers in structural steelwork 55
Prize and Certificate Awards 1, 39, 125, 126, 159, 196, 198, 428
Publications, Institution:
New Charter and Bye-Laws 125, 232
Formulae for computation of the strength of reinforced and prestressed concrete members—Report 39, 126, 159, 276
Radio towers —Discussion 151
RANGASAMI, K. S. and S. K. Mallick: Degrees of freedom of plane and space frames ... 109
—Correspondence 310
RAWLINGS, B.: Iterative method of moment distribution for space frames 295
Repair: Shutter ties in unlined concrete water-retaining structures 135
—Discussion 307
Representation of Institution on outside committees 40, 85, 120, 160, 232, 263, 433
Representation Overseas 160, 433
Research Awards 39
Research programmes in structural engineering in Britain: Debate 3, 215
Rings: Numerical buckling analysis 245
Roads, underground:
Developments in design of submerged tunnels 41
—Discussion 265
Roofs:
Design and construction of impounding station 199
Extension of hangar for BOAC —Discussion 397

PAGE

ROSE, W. Hunter: Structural use of precast concrete and the BS Code of Practice CP 116 (1965) 323
ROWE, R. E., W. B. Cranston and B. C. Best: New concepts in design of structural concrete —Discussion 127, 411
—Corrigendum 433
Safety, structural:
Cylindrical television masts in Great Britain 5
—Discussion 355
Ingeneers or Engineers? Presidential Address 429
New concepts in design of structural concrete —Discussion 127, 411
—Corrigendum 433
Structural use of precast concrete and CP 116 (1965) 323
SARKAR, S.: See EVANS, R. H. and S. Sarkar
SCRIVEN, W. E. and W. R. Pilgrim: Deflexions and bending moments produced by load distributed over a small area of infinite circular slab on elastic foundation —Correspondence and Corrigendum 170
SCRUBY, B. and A. R. Collins: Debate—The control of research programmes in structural engineering in Britain... ... ... 3, 215
SCULLEY, K. A.: Correspondence on 'Critical load of trusses with redundant members', by A. Bolton 95, 108
Settlement: Twenty-storey office block on soft sand in Nigeria —Correspondence 181
SEVERN, R. T.: Award of Research Diploma... 39
Solution of foundation mat problems by finite-element methods 223
SHADBOLT, K. F.: See PAYNE, N. J. and K. F. Shadbolt
Shear connectors: North American practice in glue laminated timber bridges 453
Ship structures: Developments 63
—Discussion 443
Shutter ties in unlined concrete water-retaining structures 135
—Discussion 307
SILHAN, S. G.: See CREASY, L. R., H. C. Adams and S. G. Silhan
Sir Arnold Waters Medal 126
Site investigation:
Building high in a typhoon zone—Hong Kong 171
Cylindrical television masts in Great Britain 5
—Discussion 355
Design of submerged tunnels 41
—Discussion 265
Impounding station at King George Dock, Hull 199
Twenty-storey office block founded on soft sand in Nigeria —Correspondence 181
Slabs:
Deflexion of heated concrete floors —Correspondence 155
Infinite circular slab on elastic foundation —Correspondence and Corrigenda 170
SMITH, R. E.: Award of Research Diploma ... 39
Soil mechanics: Developments in design of submerged tunnels 41
—Discussion 265

PAGE

Specification writing: The law as it affects the structural engineer 93
—Discussion 239
Stanchions, aluminium, small-scale, in combined bending and compression 143
Stay ropes: Design and construction of television masts 5
—Discussion 355
Steel:
Building high in a typhoon zone—Hong Kong 171
Cylindrical television masts in Great Britain 5
—Discussion 355
Design of network arches 249
Developments in ship structures 63
—Discussion 443
Extension of hangar for BOAC at London Airport —Discussion 397
Failure loads of steel and structural aluminium alloy portals 207
Hull-core structure —Discussion 169
Impounding station at King George Dock, Hull 199
Inglis A: a fully rigid multi-storey welded steel frame 435
Prestressing of steel girders 351
Prismatic coal bunkers in structural steelwork 55
Radio towers —Discussion 151
Trench type subaqueous tunnels 339
Steel wire, 0·2-in-diameter: Fatigue behaviour of sleeved and swaged joints 269
STEVENS, R. F.: Award of Research Diploma 39
Stressed skin: Hull-core structure
—Discussion 169
Stresses:
Developments in ship structures 63
—Discussion 443
Formulae for computation of strength of reinforced and prestressed concrete members—ISE Report 39, 126, 159, 276
Prestressing of steel girders 351
Structural analysis:
Analysis of structural piling systems ... 403
Analysis of Vierendeel bents with non-parallel members 16
Column buckling loads by conjugate beam method
—Correspondence and Corrigenda 183
Critical load of trusses with redundant members —Correspondence 95, 108
Degrees of freedom of plane and space frames 109
—Correspondence 310
Design of structural concrete —Discussion 127, 411
—Corrigendum 433
Distribution method for use with electronic computers 233
Foundation mat problems by finite-element methods 223
Iterative method of moment distribution for space frames 295
Method of moment distribution 187
Numerical solution of second-order problems in structural analysis 79
Optimum design by structural synthesis
—Précis 155

Structural Analysis: (*cont.*) PAGE
